

February 2, 2016

To: Environmental Review Commission

From: Harold Kelly, Environmental Health Supervisor
Environmental Health Program
Person County Health Department

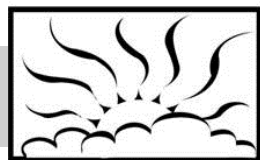

RE: Session Law 2014-120, Section 29. (b)
Engineered Design Review

Part	Review Procedures	Informal Reviews	Working Job Titles of Reviewers
1A: On-site Water Protection Regulatory Review Procedures	All systems requiring design by a professional engineer (in accordance with 15A NCAC 18A .1900), or by a designer approved by the manufacturer, are forwarded to the On-Site Water Protection Branch for review and approval.	Engineered designs are informally reviewed by Person County Environmental Health to ensure that the proposed system location and long term acceptance rate are in agreement with site/soil evaluations, and that all required information has been submitted for State review.	Licensed Soil Scientist Registered Environmental Health Specialist
1B: Food Protection and Facilities Review Procedures	Franchise restaurant plans are reviewed and approved by the Food Protection and facilities Branch. Local restaurant plans are reviewed and approved by the county. Pool plans are also submitted to the State for technical review.		Registered Environmental Health Specialist
2A: On-site Water Protection Informal Internal Review Processes and List of	The Environmental Health Program maintains a partial list of engineers and designers. A note specifies that the list only includes engineers and	Engineered designs are informally reviewed by Person County Environmental Health to ensure that the proposed system location and long term acceptance rate are in agreement with site/soil
